

SPANISH Hydrographic Section Plans (*Pedro Velez and Fiz Perez*)

1. Ocean Climate Memory (MOC program): sections along 8N and Ushuaia to Cape Town (February and April 2010) - part of a circumnavigation project, mainly focused on biodiversity and ecosystems, and therefore the CTD resolution will be very coarse, one every day.
2. OVIDE 2010 (A25 / Iberian Peninsula to Greenland): Partnership with France / chemistry by Spanish group.
3. A05 in December 2010.
4. OVIDE 2012 Spanish cruise.
5. FICARAM 2013 (Ushuaia to Cartagena, Spain along WOCE A17). Funding to be considered as part of the new EU Carbochange program.

A05 — December 2010– January 2011

130 CTD stations
